Power to Manage & Automate Business Activities

RujulERP - Workshop

- Do you know, how resources are utilized in your workshop?
- Do you find it difficult to cater customer requirements?
- The next-day deliveries and late cut-off times troubling you?
- Ever wonder, how you can minimize those late deliveries?

Assigning multiple services to multiple mechanics and track their efficiencies at the end sounds amazing, but usually you failed to do so. From tracking exact bin location of tools and checking the spares and oil status in inventory are amongst the toughest job, that can become the easiest one if performed with a right solution that is designed specially for workshop industry.

We are here to offer you single solution with a blend of industry centric functionalities to cater every hurdle you are facing and streamline your business in no time.

Our proven approach bridges the gap between Business Requirement and Technology.
