

It is a comprehensive solution, developed especially for Shipping Traders; which covers every aspect of their business. It is very easy to implement, user friendly, designed and developed for effective and efficient management. It is the result of active participation and valid suggestions of some of the top-of-the-pile Shipping Industry traders, coupled with functional skills. We are confident that our product is an innovative & highly flexible solution as it centralizes the operations of multiple locations which improves the productivity.

Being a solution focused on the Shipping business, it is a better choice as compared with the generic accounting software as it comes ready with most of the features & functionalities required by this industry.
